WHY WPCI?

WPCI is one of two Bell Mobility Dealerships who have gone through a stringent evaluation process in order to achieve Vendor of Record status for the Ontario Provincial Government. The process included the ability to become a PCI Compliant environment along with offering a heightened level of responsiveness and an overall "industry leading" level of customer service. This has enabled us the privilege of working with the Provincial Government and affiliated agencies for the past nine (9) years. WPCI has been providing industry-leading wireless sales and service to many of Canada's leading fortune 100 and 500 companies for over 27 years. Established in 1987 as a Bell Mobility exclusive dealer, we have grown our business to represent 10 locations throughout Ontario, with over 100 staff members. These locations include Greater Toronto Area (4), Bracebridge, Huntsville, North Bay, Barrie (2), and Windsor.

WPCI is a leading provider of wireless solutions for the corporate market. We deliver a wide range of solutions to corporate clients seeking improved productivity and efficiency. We are committed to providing innovative and flexible business solutions that provide clients with measurable returns on investment and direct impact on their workflow and client interactions.

WPCI's leadership is focused on the development of both strategic and tactical initiatives to foster a winning team and competitive advantage while consistently driving results for our clients.

OUR PHILOSOPHY

Whether you are a Small, Medium or Enterprise Business, rest assured we have the experience and knowledge to provide you with the peace of mind your wireless business is in good hands. Our strength is our people; they make the difference one customer at a time. We are confident the WPCI Team can deliver both the expertise and professionalism required to exceed the service levels expected by all businesses.

PRODUCTS AND SERVICES

As a Bell Dealer, WPCI is a one stop entity for all your business needs including voice and data products, GPS tracking for vehicles, assets and human resources, wireless internet and POS, and many more related products.

THE WPCI ADVANTAGE

WPCI is a financially sound organization and one of Bell's most successful dealers operating 10 locations throughout Ontario. As a Bell dealer, our 10 locations all have a Bell showroom to showcase our products and services to the local client.

ONE POINT OF CONTACT MODEL – WPCI PARTNERS ON A NATIONAL BASIS

We have a dedicated team to help manage all wireless business requirements on a national basis.

Since we maintain close ties with affiliate dealers and carriers on a national basis outside of the Bell Mobility territory, such as Northern Ontario, Northern Quebec and Thunder Bay, our fulfillment services have stood the test of time and have proven to be successful while we maintain the ONE POINT of CONTACT model.
